RESPONSE TO FURTHER RESTRICTION REQUIREMENT

Sir:

In response to the Action mailed on October 22, 2002 requiring a further restriction requirement, Applicant elects Group I, claims 13-17, 31 and 32, with traverse, drawn to methods for determining gastric cancer or a related condition comprising assaying for an antibody that binds to sterol carrier protein-X/sterol carrier protein-2.

Remarks

Claims 13-17 and 31-32 as they relate to methods for assaying for an antibody that binds to sterol carrier protein-X/sterol carrier protein-2 are elected with traverse. Applicant traverses the election requirement because, while acknowledging that the two types of antibodies identified by the Examiner are different, Applicant does not believe that examination of both antibody types would entail a significant burden on the Examiner.
